

Lackawanna Sail & Power Squadron

Winter 2009 Public Boating Courses & Seminars Northern NJ

Please call / email if you are interested in signing up for our courses or to get more information on the courses.

BOATSMART – WINTER 2009

Our **BoatSmart** course awards the NJSP boat safety certificate required in New Jersey to operate a vessel or personal watercraft. Currently, all power vessel operators born in 1949 or later are required to possess a certificate. On and after June 1, 2009, **all** vessel operators must possess the certificate.

FOUR WEDNESDAY NIGHTS

Feb. 11 – Mar. 11 (one snow day built in)
Montville Township Public Library

On-line registration at www.lackawanna.org is required by Feb.06

Seminars

USPS has a series of seminars covering specific topics of interest. Each seminar is taught in a single two-hour class. A student notebook is included, along with a take-away guide or other items useful on your boat. Each seminar provides credits toward the soon-to-be-released *Boat Operator Certification* program, and credit toward elective courses.

“Using GPS,” **Boat Handling Under Power**,” “Knots, Bends and Hitches,” and “Trailing” will be held at Honeywell on Wednesdays (4/15, 4/22, 4/29, 5/06). Visit our website www.lackawanna.org to see costs and when each seminar will be held. To register for one or more seminars, follow the registration link for each seminar no later than the Monday of the week preceding the seminar.
